

DOMINATOR COMMUNITY

According to Stanford Psychologist, The Covid-19 crisis has taken a psychological toll on people of all ages, but one group especially affected is teenagers. School closures and enforced social distancing have cut off many teens from psychological support, putting them at higher risk of developing anxiety and depression.

ReSElient COACHES

Your ReSElient Coach coaches you through the virtual learning system training process and is available to introduce and assist with all the services offered in the Dominator Community.

FAMILIES

When families feel valued as partners in the school, they can also learn how to support and build on schoolwide SEL practices in their homes. Research suggests that evidence-based SEL programs are more effective when they extend into young people's home lives (Albright & Weissberg, 2010).

LESS TALK MORE SEL

DOM offers our Less Talk More SEL family & community forums as well as worksheets right in our system for students to download and do SEL worksheets in the home to build healthier relationships with their family members.
